About the Symposium

Research flows from academic to industry. It is most important channel for a successful transition of knowledge to the commercial sector. The basic findings emerging from of nanotheranostic research provides novel strategies for prevention and eradication of cancer. To boost up this phenomenon we need to transform the methodologies and strategies of development of quality nanotheranostic vectors for the treatment of cancer to the next generation. Symposium could be the best way to achieve this objective. We are organizing one day national level symposium for mid-carrier scientists and teaching faculties for empowering and upgradation of acknowledge in the field of nanotheranostic research in the treatment and diagnosis of cancer.

Objectives

- To focus on advanced nanotheranostic vectors for the treatment of cancer.
- To develop awareness about nanotheranostic research for prevention and eradication of cancer.
- To motivate the academicians for development and fabrication of nanotheranostic carriers through different methodologies.
- To extend the frontiers of nanotheranostic nanomedicine targeting research in a diverse Research & Development field in cancer research.

About the Institute

Gyanveer College of Pharmacy Sagar was established under the aegis of Gyanveer Seva Samiti with an aim of imparting quality education. The Institute is conceived to provide leadership in pharmaceutical sciences. It is approved for D. Pharm & B.Pharm course, as per the norms and standards of regulating bodies. We have modern lecture halls, well equipped laboratories, e-library and computer labs with Internet facility. The college is approved by Pharmacy Council of India (PCI) and affiliated by RGPV, Bhopal. The institute is fully devoted in development and upgradation of high level of research standards.

Location

The Sagar city is around 180 KM north-east of state capital, Bhopal, and 200 km from Jabalpur. It is known in all over India due to its Central University named as Dr. Harisingh Gour Central University and Army Cantonment. It is well connected by road and rail. The vibrant character of the city is its lush green pollution free environment. Weather is pleasant. It has emerged as the educational hub especially in the sphere of pharmacy.
